TAMPON PRINTING MACHINE

**"TSM 60/90 with
"hermetic" multiple colour kit Solo**

Highlights

- Basic machine "TSM" + KIT ✓**
Kit freely selectable
- "hermetic" transverse doctor kit ✓**
1- or 2-colour transverse doctor kit
Individual ink/doctoring cup change
Ideal for long printing parts that require a lot of print
- "hermetic" multiple colour kit Solo ✓**
Up to 5 ink/doctoring cups and up to 5 cliché units in series arrangement
Individual motif and/or colour change
Individual cliché change

"TSM 60/90" – 2 into 1

Two machine series became one.

Now it is the customer's choice to select one of two typographic units and to save resources by deciding to have the unit converted into another printing unit at a later point of time.

The basic machine "TSM" always remains the same with the kit being freely selectable and perfectly in line with the requirements of the printing unit and print image as well as production output.

Each printing unit as well as tampon lift and carriage movement can be provided as a pneumatic or electromechanic drive kit.

"TSM 60/90" with "hermetic" transverse doctor kit

"TSM 60/90" with "hermetic" multiple colour kit Solo

"TSM 60/90 with "hermetic" transverse doctor kit

The basis of the printing unit is:

A "hermetic" transverse doctor kit for print motifs up to a length of 520 mm and a print image up to 85 mm wide. The special feature here is that it is able to handle extremely large or very long print images on one and the same printing unit in just one printing pass. It is ideally suited for long printing parts that require a lot of print. There is either the option of using one colour (1 ink-/doctoring cup) or operating with 2 contradirectionally acting ink-/doctoring cups, which provides for application of 2 colours in one printing pass. The tried and tested "Magnet screen clichés" or "Steel clichés" can be used as printing clichés.

A "hermetic" multiple colour kit Solo provides up to 5 colour units in doctoring cup size 60 and 2 - 4 colour units in doctoring cup size 90 (Ø) and even serially arranged motifs are possible. This enables individual motif changes (printing plate exchange) or colour changes and adjustment via precision table. A big advantage: You can insert do-it-yourself printing cliché types such as environmentally friendly plastic plates that can be rinsed off with water.

Energy-efficient cinematics in doctor or tampon movement and a resource-saving machine frame construction round off the successful machine concept.

Options:

Selectable for all printing machine variants:

- ✓ Tampon displacement
- ✓ Transfer systems
- ✓ Ink residue pick-up system
- ✓ Base frame with and without angle table
